TASK 1

Scenario 1: Test Drive Booking

Prerequisites:
- **Test Drive Booking page**
- IOS 16
- Safari v16.5
- Market: United Kingdom
- Date: 07/07/2023
- Environment: Production
- Version: Latest released 6.0

ID		
1	Title	**The Cross button doesn't look an active**
	Screenshot No.	1
	Steps to reproduce	1. Tap on the vehicle to open the popup menu 2. Check the Cross button appearance
	AR	The button looks not active
	ER	The button should have attributes of active elements (not to be fully grey, maybe any blue border)
	Severity	Minor
2	Title	**The scroll (grey line) shouldn't be visible if no scrolling now**
	Screenshot No.	1
	Steps to reproduce	1. Check the visibility of the grey line if no scrolling action at this moment
	AR	The scroll isn't hidden

	ER	The scroll is hidden.
	Severity	Minor
3	Title	**The scroll position is wrong**
	Screenshot No.	1
	Steps to reproduce	1. Check the position of the scroll on the page
	AR	The Scroll looks so far from the blue line
	ER	The scroll is located in the right place
	Severity	Minor
4	Title	**The amount of found showrooms is wrong**
	Screenshot No.	2
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Check the amount of found showrooms on the map and in the row above the map
	AR	The amount is wrong in the row above the map
	ER	The amount is correct
	Severity	Minor
5	Title	**One group of showrooms is blue without a visible reason**
	Screenshot No.	2
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Check that one group of showrooms on the map is blue
	AR	One group of showrooms on the map is blue
	ER	If it's related to automatic location detection then maybe make sense to mention this location in the field "Search by location". Otherwise, I expect to see this group is black also.

	Severity	Minor
6	Title	**Signs "+" and "-" are not in the center of map buttons**
	Screenshot No.	2
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Check the buttons for changing the scale of the map
	AR	Icons "+" and "-" are not in the center
	ER	Icons "+" and "-" are in the center
	Severity	Minor
7	Title	**The fax number is black on the showroom detail card**
	Screenshot No.	3
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom
	AR	Fax number is black
	ER	Fax number is blue
	Severity	Minor
8	Title	**The model name is wrong**
	Screenshot No.	4
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom 3. Click on the "Select Showroom" button (you should be on step 3 and able to see the chosen model)
	AR	The model name is wrong
	ER	The model name is correct
	Severity	Minor (Severity is minor, but I would put the priority upper since this looks like a bad user experience)

9	Title	**The "Choose motorization" button doesn't look active**
	Screenshot No.	4
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom 3. Click on the "Select Showroom" button (you should be on step 3 and able to see the chosen model)
	AR	The "Choose motorization" button doesn't look active
	ER	The "Choose motorization" button looks active
	Severity	Minor
10	Title	**Check the layout of the page on the screenshot 5**
	Screenshot No.	5
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom 3. Click on the "Select Showroom" button (you should be on step 3 and able to see the chosen model) 4. Scroll down(? Or maybe click on the "Choose motorization" button)
	AR	1. Check why there are no visible steps icons 2. The "Cross" button has a blue color 3. The gray line under the "Cross" button
	ER	1. Check the mockup to be sure about the visible part and context around page 2. The "Cross" button is black (?) if it's not hovered 3. Usually, we don't split by visual separator the Cross from other space, needs to check the mockup
	Severity	Minor
11	Title	**No certain time for the time slots for the test drive booking**
	Screenshot No.	5
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom

		3. Click on the "Select Showroom" button (you should be on step 3 and able to see the chosen model) 4. Scroll down(? Or maybe click on the "Choose motorization" button)
	AR	1. No certain time for the time slot, the range of the real time could be not clear for the user 2. No Evening time
	ER	1. Discuss with PO/designer the time range necessary in case it's absent in the mockup. 2. Discuss if the Evening slot should be available or not
	Severity	Minor (Minor because of still possible to continue the use case but very bad user experience)
12	Title	**The "Request a test drive" button has the wrong color and a typo in the text**
	Screenshot No.	5
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom 3. Click on the "Select Showroom" button (you should be on step 3 and able to see the chosen model) 4. Scroll down(? Or maybe click on the "Choose motorization" button)
	AR	1. The color is dark blue 2. Different text for the button "drive" starts with the lower letter
	ER	1. The color should be the same as on other pages 2. Needs to check the copy to find the right spelling (Drive or drive) and change for pages where it's different
	Severity	Minor
13	Title	**No error state for the "Email" field**
	Screenshot No.	6
	Steps to reproduce	1. Click on the "Book a Test Drive" button to navigate to the map 2. Click on any showroom 3. Click on the "Select Showroom" button (you should be on step 3 and able to see the chosen model) 4. Navigate to the booking of time and click on the "Request a test drive" button 5. Input the wrong format of an email address

AR	1. No error state 2. Different color of the field if the user left the field 3. No cursor if the field is still chosen	
ER	1. If we are checking the format of the email, the error state should appear after the user left the field 2. If a user is still typing I expect to see the cursor (or maybe other attributes to show that the field is editing now)	
Severity	(Depends on the behavior of the system after submission. If no validation and request failed without keeping the data in fields and other information is lost could be Major and Critical)	

TASK 1

Scenario 2: Search for a vehicle

Prerequisites:
- **Search vehicles page**
  - iPad Pro 12''
  - Chrome v114.0.5735.198
  - Market: Australia
  - Date: 07/07/2023
  - Environment: Production
  - Version: latest released 8.246

ID		
1	Title	**No image for the vehicle on the main page**
	Screenshot No.	1
	Steps to reproduce	1. Check the image for the GLA 200 model
	AR	The image is absent. Needs to check if we lost the needed size of the icon or if this is the exact OS/etc
	ER	The picture should be shown
	Severity	Major (I believe it's sensitive information for a user. Often we choose the car by appearance or don't remember the model name and picture could be useful, or to show how beautiful it is)
2	Title	**Wrong layout for some icons**
	Screenshot No.	1
	Steps to reproduce	1. Check the position of icons "?" close to the Estimated price 2. Check the position of the Petrol and Transmission icons and corresponding text
	AR	The icons and text look lower than the first parameter

	ER	The icons and text are aligned
	Severity	Minor
3	Title	**Recheck the layout of vehicle filter**
	Screenshot No.	2
	Steps to reproduce	1. Click on the "Filter" button
	AR	1. The gray separator after the "Cross" button 2. A lot of space around the "Filter" text 3. Check the copy for the text in a button on the bottom, if it's ok that every word starts from the upper letter
	ER	The layout matches the mockup
	Severity	Minor
4	Title	**Sorting of vehicles is lost after filtering**
	Screenshot No.	4
	Steps to reproduce	1. Click on the "Filter" button 2. Apply the Model filter and then another filter 3. Click on the "Show Available Vehicles"
	AR	The order of vehicles doesn't correspond to the chosen sorting
	ER	Sorting is kept
	Severity	Major (not clear if the refresh of the page will return the sorting or change of sorting, or if a user will figure out this, so could be significant)
5	Title	**No fuel type in the cards after filtering**
	Screenshot No.	4
	Steps to reproduce	1. Click on the "Filter" button 2. Apply the Model filter and then another filter 3. Click on the "Show Available Vehicles"

AR	For some reason no fuel type information on the cards. Maybe it doesn't exist for every model or it's a but. Needs to recheck design and the same cards before the filtering	
ER	The provided information corresponds to expected	
Severity	Major (fuel type is an important parameter that can help to choose the vehicle)
